

# ROUGE and TRIPOLI in PUSH-UP TUBES

from **GROBET USA**®

- *No mess* • *No broken bars* • *No waste*

*Push-up cardboard tube exposes only the amount you need.*

- **White rouge** - A quick polishing compound for hard metals such as stainless steel, chrome or platinum.
- **Green rouge** - Imparts a high luster on hard metals such as chrome, stainless steel or platinum.
- **Red rouge** - For producing the final high color and luster on gold, silver and other soft metals.
- **Yellow rouge** - For hard metals such as platinum, chrome and stainless steel. Leaves little residue on work.
- **Black rouge** - For producing a rich, dark luster on white gold, platinum, or silver.
- **Plastic compound** - For polishing hard plastics (not to be used on soft or low melting plastics such as polyethylene).
- **Tripoli** - A fine cutting abrasive for use on all metals where rouge will be used for final finish. Leaves metals scratch-free, but dull n appearance.
- **One Step** - The final touch for finishing metals and plastics. Removes scratches and leaves a high finish. Clean and greaseless with no discoloration.
- **Emery** - Used on iron, steel and hard metals for coarse buffing and removing scratches, rust, corrosion, burs, etc. Not for gold, silver or plated articles.
- **Easy red rouge** - Special formulation makes easy clean up.
